AMENDED CLAIMS

This listing will replace all prior versions of the claims in the application.

- 1. (original) A wheelchair pushrim system comprising:
 - a) a pushrim;
 - b) a wheel connected to the pushrim; and
 - c) an insert compressibly fit between the pushrim and the wheel.
- 2. (original) The system of claim 1 wherein the insert is made of a substantially elastic material.
- 3. (original) The system of claim 2 wherein the insert is a concave trough.
- 4. (original) The system of claim 1 wherein the pushrim is substantially hollow.
- 5. (original) The system of claim 4 wherein the pushrim has an elongated circular cross-section.
- 6. (original) The system of claim 4 wherein the pushrim has an oval crosssection.
- 7. (original) The system of claim 4 wherein the pushrim further comprises at least one rib which improves structural strength.
- 8. (original) The system of claim 1 wherein the insert has a gripping texture.
- 9. (original) The system of claim 1 wherein the pushrim has a substantially smooth texture.
- 10. (original) The system of claim 1 wherein the pushrim is connected to the wheel with at least one tab mount.
- 11. (original) The system of claim 1 wherein the pushrim is connected to the wheel with at least one rivet-nut mount.
- 12. (original) The system of claim 1 wherein the insert is coated with neoprene.
- 13. (original) A wheelchair pushrim system comprising:

- a) a pushrim having a non-circular cross-section:
- b) a wheel;
- c) a connector connecting the pushrim to the wheel; and
- d) an insert fit between the pushrim and the wheel.
- 14. (original) The system of claim 13 wherein the insert is compressibly fit between the pushrim and the wheel.
- 15. (original) The system of claim 13 wherein the pushrim has an elongated circular cross-section.
- 16. (original) The system of claim 13 wherein the pushrim has an oval cross-section.
- 17. (original) The system of claim 13 wherein the pushrim further comprises at least one support rib.
- 18. (original) The system of claim 13 wherein the insert has a gripping texture.
- 19. (original) The system of claim 13 wherein the pushrim has a substantially smooth texture.
- 20. (original) A wheelchair pushrim system comprising:
 - a) a pushrim;
 - b) a wheel connected to the pushrim, wherein the pushrim has:
 - i. an elongated circular cross-section; and
 - ii. a support rib;
 - c) an insert compressibly fit between the pushrim and the wheel, wherein the insert:
 - is made of a substantially elastic material;
 - ii. is a concave trough; and
 - iii. has a gripping texture.
- 21. (original) The system of claim 20 wherein the insert is coated with neoprene.
- 22. cancelled
